

JetQuay Launches Private Swab Test Facility, Halves Custom Clearance Timing

Prime Aces Limousine in partnership with JetQuay CIP Terminal, the Only Private Terminal in Southeast Asia with Private Swab Test Facility to half custom clearance timing via VIP Meet and Greet Service.

CENTRAL, Singapore - April 12, 2021 - [PRLog](#) -- [Prime Aces Limousine](#) is proud to announce their collaboration with JetQuay, the only private terminal in Southeast Asia that provides customers – through their [VIP Meet and Greet](#) service – access to a private Immigration & Customs checkpoint, Lounge and Swab Test facility.

All travellers into Singapore will undergo mandatory checks at Immigration and swab test upon arrival at Changi Airport. This process can take up to two hours if processes are extended with delays and peak-hour queues.

JetQuay CIP Terminal can help travellers reduce custom clearance timing by up to **50%** of what is usually required at main terminals in Changi Airport. This is made possible with their exclusive 'VIP Meet and Greet' package that includes a private immigration & customs checkpoint with minimal queue, and a private swab test facility that meets local regulations regarding COVID-19 testing.

While the process can be twice as fast as custom clearance at Changi Airport, it maintains the same level of hygiene and safety to prevent the spread of COVID-19 within Singapore. JetQuay's services are available to any passenger travelling on full-service carriers, on any class - arriving, departing or transiting through Terminals 1, 2, and 3.

The entire process is not only smooth but enjoyable. Upon arrival, travellers utilizing the Quayside service package will be met with a Guest Relations Officer right from the gate, where they are whisked by a private vehicle to JetQuay CIP Terminal. Travellers can rest in the comfort of a private lounge and freshen up while service staff handle their luggage and travel documents to perform the check-out.

While waiting for completion of the check-out process, travellers can surf the internet and contact their office via the business centre, enjoy a light meal and even take a shower. Once check-out is complete, travellers can collect their luggage before being escorted to a private limousine that can transport them to their desired location.

Prime Aces Limousine was the first in its industry to provide their customers with [Antigen Rapid Test \(ART\)](#) option, where their assigned chauffeur can be tested with the ART and have the results within 30 minutes.

About Prime Aces Limousine
